Subject: RE:

Please run a sequence search of SEQ ID 1 lists the nucleotide and amino acid sequence which are 1923 nucleotides and 484 amino acids
However, if need be SEQ ID 2 is the amino acid sequence alone.
SEQ ID 3 -2474 nucleotides.

Case number is 09/763957
I do not need interference databases searched.

Importance: High

Good morning Maria,

Your request is a little unclear. Please provide the following information when submitting a search (serial number and sequence id number).

Here is an example of a search request format via e-mail:

Please search serial number 09/123456, sequences 1, 5, 9 in the commercial and patent (interference) databases.

Please be aware of the guidelines set forth by TC1600 when submitting a sequence search:

- => Sequence length can not exceed 10,000 residues
- => Ten sequence ids per search
- => Search can not exceed 13 hours of processing time

If I can be of further assistance, please do not hesitate to call.

Sincerely,
Mary Hale-Supervisor
